Stainless Steel clad pipe

Cladding material :

SS201/SS 304/SS316 / SS430 + carbon steel

Features & Application:

*SS layer ensure the corrosion resistance of the surface ,carbon steel enhance the overall strength and make the total pipe more strong and durable.

*much more cheaper price than traditional ss pipe and save the cost

*mainly used in municipal facilities decoration/fances,home use stail rail,curtain rail etc.

Specification list:
